

Map of the Festival area

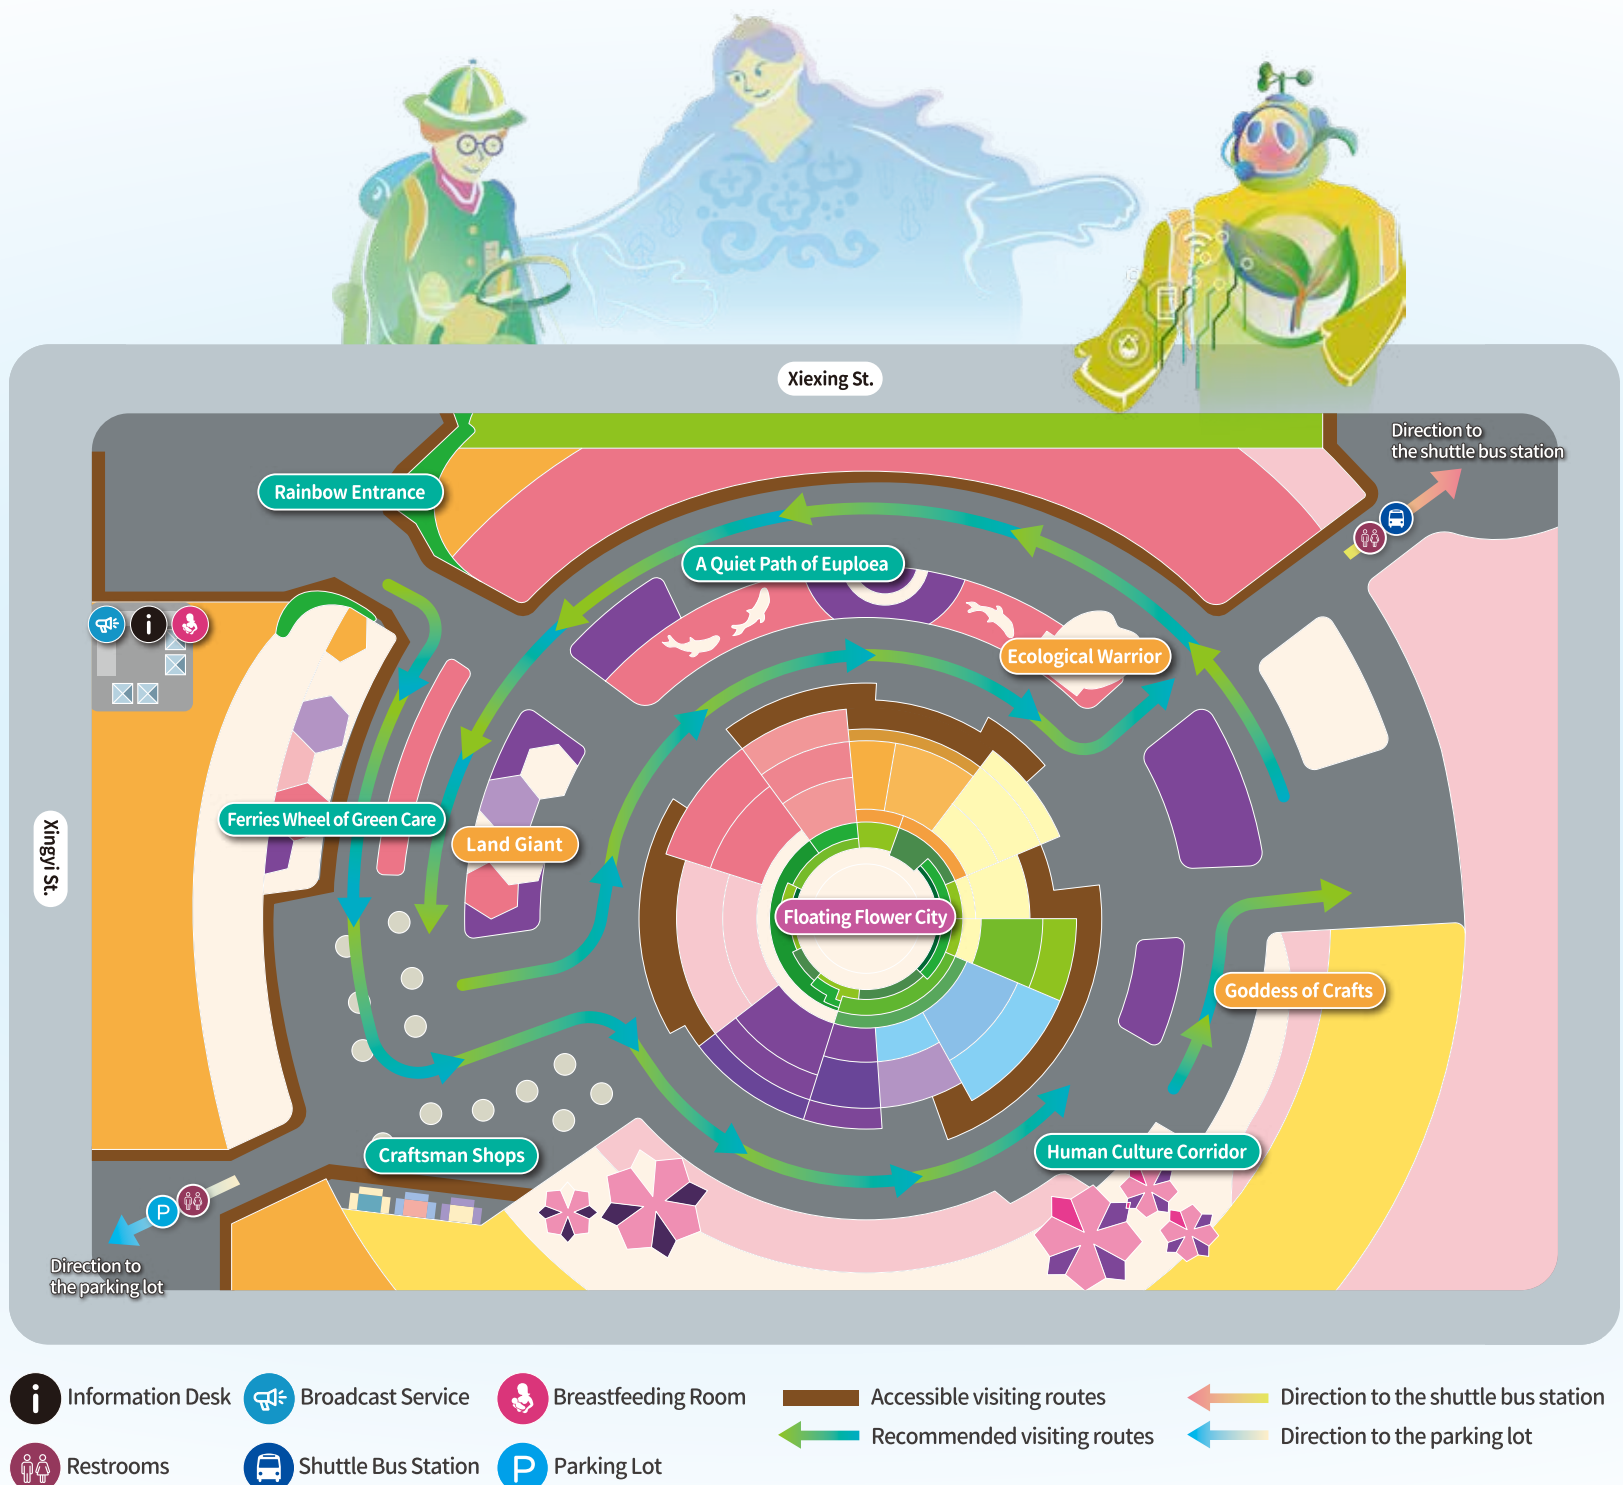

Xinshe has long been a rest stop for Euploea. The Euploea-shaped rest area will symbolize a space of warmth to visitors' hearts.

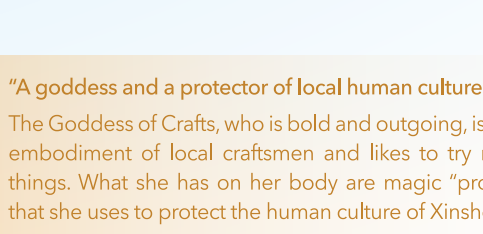

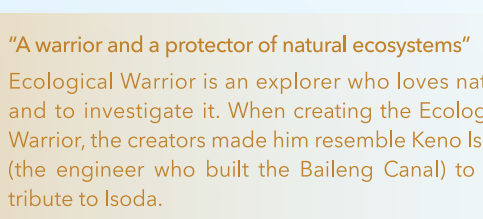

The Craftsman Shops invite the Xinshe District Recreational Farming Guidance, Development Committee, and local stores to build a mini version of the Xinshe Craftsman Village by creatively arranging, promoting, and displaying local craftsman's artworks.

Designed based on Xinshe's famous handmade book, visitors entering the Human Culture Corridor will feel as if they have entered a magical storybook.

Flower carpet show: The flower carpet show will take place every hour, every day from 09:00 to 16:00.

2023 Taichung International Flower Carpet Festival

Floating Flower City

Nov. 11- Dec. 3, 2023 08:30-16:30

Location
The Second Seedbed of Taiwan Seed Improvement and Propagation Station, COA
No. 30, Xiexing St., Xiecheng Vil., Xinshe Dist, Taichung City

Festival theme

The 2023 Taichung International Flower Carpet Festival presents "floating flower city," the first-ever floating flower castle, in Taiwan. Through metaphors, the three elements of Xinshe (i.e., natural ecosystems, agriculture, and human culture) are transformed into three guardian angels. In fact, all of Xinshe's local workers are Xinshe's guardians who help develop it into a prosperous region. Tourists visiting Xinshe feel as if they have entered a utopia.

Xinshe Flower Festival

This year, the Xinshe Flower Festival introduces "Loving People and Mountains and Striving to Shine Once Again" as its theme, aiming to use its dazzling, reinvented flower sea to draw visitors

Market for Taichung's Special Agricultural Products

In line of 2023 Xinshe Flower Festival activities, the "Taichung Agricultural Product Marketing Area" was established, selling Taichung's freshest, in-season agricultural products (e.g., mushrooms, Mandarin oranges, persimmons, apples, grapes, and Lishan oolong tea) as well as delicious food prepared by home economics courses participants. On weekends, various stage performances are also held. The combination of the Xinshe Flower Festival activities and Taichung's high-quality agricultural products will allow visitors to watch, eat, and have fun.

- Notice to visit :
- For your safety, please pay attention to the dynamic facilities in the festival area.
 - For the safety of visitors, camera drones are not allowed in the Flower Carpet Festival area without an approved application.
 - Riding bicycles is prohibited in the festival area. Please walk your bicycle instead.
 - Picking and/or damaging flowers and plants in the festival area as well as crops in the surrounding farms are prohibited.
